## ***A WORD FROM JOHN YOUNG***

### ***CREATION RESEARCH UK ADMINISTRATOR***

**THE PAST** - The ministry started in the UK after John Mackay's first missionary visit back in 1987 with Christ's power filled message that God's Word is true from beginning to end. Since then, both he and we have been praying the Lord Jesus would raise up a British Timothy to run with this ministry under Christ's leading, to continue the vision the Lord gave John and our faithful team of helpers in the UK. We are in a battle for the truth that can set people free from the blindness of evolutionary thinking. God's Word is Holy and it is wholly true, so we are to fight the good fight of our faith.

**THE PRESENT** - The good news is that our UK Timothy is now in training, so it's time to share the bigger vision with you for prayer and support, so welcome to Joseph Hubbard from me John Young and our whole team in the UK. We can see the calling of the Lord on Joseph's life. He has studied to show himself approved. His teaching has been well received, and a number of saints have enjoyed fossil hunting field trips in good and not so good weather!

**THE FUTURE** - Below Joseph shares some exciting things from his training and some plans we are praying through, as he moves first into part time UK ministry in February, then to full time in July 2019. Meaning we have real needs for your support of this year's plans as together we serve the Lord Jesus and His people, equipping them to be able to share the answer for the hope that lies within us, which alone is Jesus Christ Creator and Redeemer. In closing, I would encourage Joseph with what Paul shared with the first Timothy:

1 Timothy 4:12. Let no man despise thy youth; but be thou an example of the believers, in word, in conversation, in charity, in spirit, in faith, in purity.

God bless,

John Young, Creation Research UK Administrator.

## ***A WORD FROM INDIANA JOE***

Greetings!

I first met John Mackay in 2014, during his visit to the UK. We discussed and prayed together about my future in the ministry, and both agreed that God was calling me into Creation Research, so we commenced working together. It's been a long old ride to get to where I am today, but the Lord has led me every single step. 2018 was a proper rollercoaster of a ride I conducted four ministry trips around the UK and spent 3 months downunder on ministry training around Australia with John Mackay and the Creation Research team. While in Australia, a supporter dubbed me Indiana Joe – a name which I have taken a liking to and have adopted for my work with Creation Research. Our Genesis Museum of Creation Research near Norwich has also boomed, and new exhibits are coming through. Creation Research UK now has its own website up and running to link all our ministry ventures together as one.

I am currently completing my science studies and the move into ministry training, has led me to give up my part time zookeeper job late February in order to focus fully on the year ahead for Creation Research. My role will be heading up itinerary planning and generally orchestrating ministry in the UK for when John Mackay comes over in August. I will also be doing some preaching and field trips during until then. Please pray for me as I take the step away from my current job and move into ministry late February. 2019 promises to be big, with a 10-week UK ministry visit from John Mackay (August to October) which will also be the beginning of a large session of training and ministry for me as I accompany John around the UK. There is also a 5-week Indiana Joe training trip to America with John in the works also, so please pray that the Lord continues to guide us in the direction He wants us to go and continues to provide our every need! It is my prayer that you will continue to support me as I take this big step of faith in walking towards what the Lord has planned for Creation Research in the UK!

God bless you all.

Araucaria!

***INDY JOE***

Joseph Hubbard – Creation Research UK.

## ***CREATION RESEARCH UK'S NEW WEBSITE!***

Creation Research UK's new web is up and running at [www.creationresearchuk.com](http://www.creationresearchuk.com)!

With information about Creation Research ministry in the UK, as well as links to our Genesis Museum of Creation Research, Indiana Joe, John Mackay, and our QnA site along with what Creation Research is doing internationally. Updates will add events and itineraries, as well as it providing a platform for this UK newsletter, so helping us spread the message BY clicking on [www.creationresearchuk.com](http://www.creationresearchuk.com)

# ***A WORD FROM JOHN MACKAY***

## ***INTERNATIONAL DIRECTOR OF CREATION RESEARCH***

The Lord's call to me back in 1986 was clear ..."Go minister in the UK and I will be with you." I had been reading the life story of DL Moody and the Lord's call for Moody to reach out in the UK leapt off the pages ... and the parallels became truly amazing. His first visit to the UK was met with incredible opposition and cancellations due to angry letters from his home land but Moody went, pressing on and the Lord Jesus overcame, and Moody's meetings became a blessed success. In like manner I went in obedience in 1987 and angry warning letters from my home country also led to my entire itinerary being cancelled. But the same Lord Jesus made it clear He was in it and the replacement meetings were greater than those cancelled! Even the phone call from the man who said the Lord had directed him to place A\$10,000 dollars in our account to cover our costs, even though he didn't know we had just finished praying for that exact amount to cover flights and arrangements, meant we could really say 'Thank You Jesus!'. From then till now our Lord Jesus has blessed with souls saved and saints taught and rescued from the doubt and spiritual strangulation caused by Satan's undermining of God's Word through the biggest lies of evolution. It has also been my prayer burden since then, for the Lord Jesus Christ to raise up a young man for this ministry in the UK and across the world. Now that prayer is being answered.

During 2018 we took Joseph Hubbard downunder for 10 weeks of ministry and research training. After this Aussie ministry trip, we as a Creation Research Team were even more convinced Joseph's calling was real ... not from man, but from Christ and for Christ! So during 2019 we will do a similar training stint in both the UK and North America which will be even more intensive. To achieve this Joseph will move from part time work and study ( February to July) into full time UK Creation Research ministry ( August on) as we plan for the Creation Guys (Joseph and myself) to spend many weeks ministering across the UK and the USA during the second half of the 2019. Pray with us and please support this venture which is right at the heart of our Saviours will.

*In the Service of the Saviour*

*John Mackay.*

## ***NEW WITNESS TEES NOW AVAILABLE IN UK!***

In 2017, Joseph Hubbard designed some original t'shirts for the purpose of aiding evangelism and witnessing. After trialling them early 2018, and with them being received really well, another lot was ordered, and a second design created. The t'shirts are currently used in Manchester, London, and Norfolk, and have proven to be extremely good as conversation starters.

After a short selling spree, preparations for the major Australia ministry trip began, and the project fell to the side. It was revived again when the Australia office jumped on the bandwagon, and with Joseph's help began to re-design the t'shirts in time for the start of the trip. They were an immediate success and are now a major part of the resources in Australia. Well, they are now back in the UK! To purchase one of your own, visit the CR UK [SHOP](#)

# ***GENESIS MUSEUM OF CREATION RESEARCH***

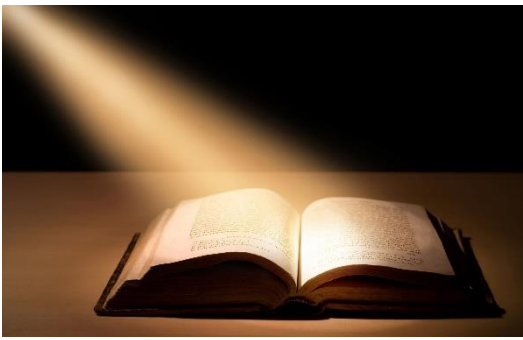

2018 was a big year for the Genesis Museum of Creation Research. Our new logo was designed and used for the first time, the museum was re-developed yet again, and it grew in terms of its collections. Visitor numbers were also up, despite it being closed for 3 months while Joseph Hubbard was on a ministry trip in Australia. One of our most important additions to the collection was the fossil of a fish-swallowing-another-fish from the Green River Formation in Wyoming, USA. Thanks to several supporters, and continual prayer, this fossil was able to be purchased and now resides within the Genesis Museum of Creation Research. This fossil provides incredible and un-deniable evidence that fossilisation must happen quickly. If too much time is allowed, the creature will be destroyed before it gets a chance to become a fossil. In other words, fossilisation has nothing to do with time, but everything to do with process. Get the process right, and fossilisation can happen quickly – in fact, it must. Get the wrong process, and the creature will never fossilise – only be destroyed.

Milopus eating a Knightia fish fossil. Now on display at the Genesis Museum of Creation Research! Come and see for Yourself!

# And The Word of the Lord Said.....

## A Short Bible Study With Joseph Hubbard

### Read: 2 Kings 4:42-44

Key Point: The Lord uses even the most insignificant of His people for mighty things – so long as we trust and honour Him. There will always be followers of Jesus, even in the darkest of places.

2 Kings 4 is full of miracles. From inextinguishable oil to raising the dead and making poison disappear. But for me, the one that really stands out is the miracle described in verses 42 through 44. It starts with a man. We are not even told his name, but we are told where he comes from – Baal Shalisha. So why did God deem this man's town more important than his name? Why are we told where this man comes from, but not who he is? The clue is in the name of the town.

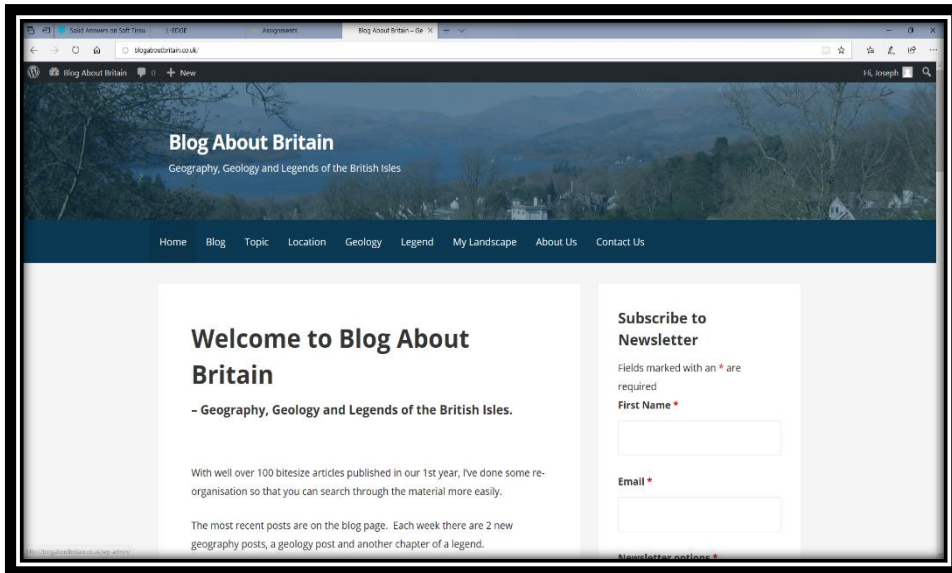

Baal, as you probably know, was the false god worshipped by the Philistines and Canaanites. It plagued the Children of Israel more than any other false god, and they fell for him time and time again, choosing to worship a fake deity rather than the One who took them out of bondage and continually sustained them. It is easy for us to look at them and scorn, but honestly, how many times do we turn our back on the One who saved us, and strive to pursue fake identities, wisdom, and idols. Let us strive to stay steadfast in the Word of God, pursuing a full relationship with Him. But Baal gives us a clue to the meaning of the town's name. Shalisha literally means 'Thrice Fallen' or Three Times Taken'. So, Baal Shalisha simply means 'Fallen Three Times to Baal'. In other words, this unnamed man came from a town that had been seeped in idolatry and false religion, having fallen to Baal at least three times.

Now, this man came to give a present to Elisha – the prophet of God. But not just any present. Notice he brings bread of the *firstfruits*. Now where did he get this idea of firstfruits? The answer is of course, Exodus 23, where the Lord commands the Children of Israel to keep the Feast of the Firstfruits, where they were to give a percentage to the Lord's work. So, this man was honouring the Law of God, by keeping the feast in the only way he could – an offering to the Man of God – Elisha. Out of a town of idolatry and darkness shone forth a light from one man worshipping the Lord.

But it was a small offering – probably all the man could afford. He may have thought it would sustain Elisha for a few days – just 20 loaves of bread and some grain. I like the way the NKJV puts it – he brought it to him in a knapsack. Just a tiny gift in proportion of the needs of the people. And you can almost feel the disbelief of Elisha's servant when he was told to give the food to all the people to eat. "What! Shall I set this before one hundred men!" But then the miracle happened. When he did as Elisha commanded all the people ate and there was some left over. But notice – "According to the Word of the Lord". There lies the true source of the miracle, just as Elisha had said – the Word of the Lord. The same Word that several hundred years later would perform almost exactly the same miracle in front of disbelieving servants, feeding over five thousand people. The same Word that became flesh and dwelt among us. The Word who is Jesus Christ, our Redeemer.

So remember, even in the darkest and most sinful of places, there will always be a light. The light of Christ shining through the people who seek His face and serve Him, even in the humblest of ways. And never forget the man who had no name, the man who simply obeyed the Lord, and honoured His word. Who simply sought to bless Elisha, and who ended up being used by God to perform a huge miracle which blessed hundreds. No matter how insignificant you feel, the Lord can use you for great and mighty things, if only you trust and obey!

# ***NEW PARTNERSHIP FOR OUTREACH***

**Author & Blogger: Sandra Bird**

**Creation Research UK and Indiana Joe have partnered with long time blogger, Christian, Journalist, mum, and home-educator Sandra Bird, and main author of the 'Blog About Britain' website. Three times a week, there is an article or blog post about geography or legends, and now every Friday, an article written by Joseph Hubbard is published on the blog, complete with photos, links and more! His subjects vary from geology to fossils, Creation and on-location sites. Soon to be on there is short videos of geology around the country from a Biblical perspective. Please do follow the blog, on the website and on Facebook: [www.blogaboutbritain.co.uk](http://www.blogaboutbritain.co.uk) and @blogaboutbritain. Please support and share this work, as there is also many interesting articles and information on the website already!**

# ***JOSEPH HUBBARD & CREATION RESEARCH***

## ***THE STORY SO FAR...***

### **Creation Research**

Back in the 1970s, John Mackay, a teacher and geology lecturer was called by the Lord into ministry, specifically into providing evidence that the Bible was true from the beginning and could be trusted. John began using evidence he had expertise in – geology and science. Ken Ham joined him, and eventually the Creation Science Foundation was born. After several years, the two parted ways and John went on to found Creation Research, a creation ministry based around the aim is to reach the millions indoctrinated to believe man evolved from ape-like ancestors, therefore they reject the Bible as false, creation as myth, and Christ as irrelevant. It is also out aim to encourage God's people to know they can fully trust Christ and His Word concerning creation and reach out confidently to a world full of evolutionists who reject the gospel. Creation Research conducts real research, providing real evidence that God's Word is true.

### **Joseph Hubbard**

In 2014, a young university student who had been following Creation Research for many years met John Mackay for the first time. His question – “I believe God has called me into ministry, how can I get involved?” After much talking and prayer, Joseph Hubbard began to get involved with Creation Research in the UK. After several short trips around with John, he embarked on a full month of ministry around the UK, culminating with a speaking session with John at the 2017 Answers in Genesis Mega Conference in Birmingham, UK. Up to this point, Joseph had been completing his degree and working as a part time zookeeper. In 2018 he joined Creation Research as a speaker, writer and researcher on a 3-month ministry trip around Australia. He is continuing his study and will complete his degree next year.

### **Genesis Museum of Creation Research**

In 2013, Joseph Hubbard founded the Genesis Museum of Creation, a small museum collection he had put together. In the next two years, the collection would grow to a substantial size, and was joined with Creation Research in 2015 to create the Genesis Museum of Creation Research. The museum now boasts over 3,500 items on display, including world class fossil specimens, all which provide evidence for the truth of the Bible. The team continue to exhibit new research that Creation Research conducts around the globe. The museum is now full-to-bursting, and other exhibits must go into storage until new housing is found for the displays around the UK. The museum also houses archaeology, natural history and resources, in addition to the fossil exhibits.

# Creation Research UK

Creation Research UK is the branch of Creation Research in the UK. It covers and runs the Genesis Museum of Creation Research, CR UK Museums project, and Indiana Joe. It is responsible for running the ministry trips, field trips, debates, projects and research, as well as publishing resources for the UK ministry. All branches of Creation Research within the UK come under the management of CR UK.

## Creation Research UK Museums Project

The CR UK Museums Project was founded in 2016 and is the branch of Creation Research UK that runs the Creation Research museums in the UK. It is responsible for running the Genesis Museum of Creation Research (GMCR) and developing new museum projects around the UK. The aim is to create a network of small museums around the country, all connected and supporting each other within the same aim. There are two museums under development at the moment. The established GMCR, and a second one under development in Haverfordwest, Wales.

## Indiana Joe

In 2018 an Australian supporter dubbed Joseph Hubbard “Indiana Joe” ahead of his Aussie tour. The name stuck, and Joseph Hubbard has become Indiana Joe. As a speaker, writer, researcher and main rep for Creation Research UK, Joe is responsible for, along with other helpers, organising itineraries, field trips, meetings, research, and other CR UK business. He also actively writes on the Indiana Joe blog ([www.indianajoe.blog](http://www.indianajoe.blog)) and often features in Creation Research’s news with articles, answers, and research reports. He is also the Director and Founder of the Genesis Museum of Creation Research ([www.genesismuseumofcreation.com](http://www.genesismuseumofcreation.com)). He is earning his degree in Palaeobiology, and is also earning a qualification in zookeeping and zoology. He has a keen interest in archaeology and natural history also.

## So.....Where Do We Go From Here?

In mid-2019, John Mackay will be visiting the UK. As the new main representative for CR UK, Joseph Hubbard (AKA Indy Joe) will be organising and orchestrating the trip, as well as traveling around with John as a speaker/researcher. As he needs to make sure his studies are completed for the year before this happens, he has left his work as a zookeeper, meaning he now has no fixed income. He will be completing his study up until mid-June, when he will then focus fully on the upcoming ministry trip. While he completes his studies, he will be working in the background on the upcoming itinerary. We need support for Joe while he completes his degree, as well as in the near future, when he moves into ministry full time. Both John and Joseph believe that God has called Joe into ministry with Creation Research, so are taking a step of faith with him leaving his work to move into ministry. This will be the beginning of a long period of training for Joseph as he moves on towards being fully involved with Creation Research in the UK, and around the world.

# How Can You Help?

## A Message From Joseph Hubbard and John Mackay

Greetings in Jesus name.

Many of you know about my involvement with Creation Research as a speaker and writer in the UK. For the past few years I have accompanied John Mackay around the UK to assist with ministry and research and have also began traveling around the UK myself, leading research and ministry trips. For 2 months during 2018 John took me on an extensive training trip around Australia and we discussed both Gods call upon my life and the need for me to enter into full time work for Creation Research. The Creation Research Team leaders in the UK and down under are agreed that the Lord Jesus has saved me and set me aside for ministry in this area.

I have been doing my geology degree over the past few years and I have sustained myself and paid my university expenses by working as a zookeeper, a role that has been hugely beneficial even to my training for ministry, as well as in research training. However, as I began to get more involved with Creation Research, we all knew the time would come when I would have to leave part time zoo keeping and move into full time ministry. The question was when?

John and I believe that the answer from God is now because:

1. Our long-term UK organiser John Young is stepping back for health reasons, from full ministry coordination to running only the finances.
2. John is coming from Australia in August so he can further mentor myself as we tour the UK doing ministry and research through October.
3. Which means that beginning January 2019, I will need to organise itinerary and ministry logistics for John and myself. This will be a much larger workload than I have done before within CR. I complete my geology degree in May 2019, but this extra work load means I will simply not be able to fit zoo work in to finance myself after January.

So, our purpose in sharing this is two-fold. First, I would greatly appreciate prayer for wisdom and guidance in this time as I take a step of faith away from work, to trusting Jesus solely and I am looking for supporters who will partner with me in this who are convinced of Gods calling in this as well. Just so you know, I will need a total of £8,000 (approx. US\$ 10,000 or AUS \$14,000 to cover my costs January to August (based on my current zoo income of approx. £250 a week). Any help you can give in this is greatly appreciated, as I need to focus my time on ministry, research and study. Help this essential ministry today by clicking below:

God bless, and all for His glory,

Joseph Hubbard AKA Indiana Joe.
